

Animal Birth Control Clinic Trap Rental Agreement

ABC Clinic offers humane live cat traps for a 7-day rental period for TNVRM (Trap-Neuter-Vaccinate-Return-Maintain) only. The 7 day period allows for the volume of local cat caretakers ready to TNR. For coaching tips, visit www.animalbirthcontrol.org/trappingtips or reach us at 254-776-7303 (text or call).

The \$50 rental deposit can be made in cash, card, or check. It will be refunded after the trap has been returned, in good, clean condition within the 7 day period. To avoid an extra trip to return the trap, bring your own cat carrier on the morning of the last cat so the cat can wake in the carrier. so you can release the it on the morning after surgery like usual.

Deposits are not be refunded in case of lost, damaged, or stolen traps. Ask for availability and approval beyond the 7 day period by email centexoutreach@gmail.com. If kept without approval, a \$3/day fee is charged after the 7th day. Cats in traps can be accepted without appointment Mon–Thurs, 7:15am-3:00pm. Text 254-776-7303 if you'd like to confirm hours/days before setting the trap.

Name _____ Phone _____

Address _____ City _____ Zip Code _____

Driver's License # _____

Trap # _____ Date Out ____/____/____ Due Back ____/____/____ Staff initials _____

- ☐ When a cat is trapped, bring it into ABC for care within 12 hours. I will not leave a baited trap unwatched for more than 15 minutes.
- ☐ I understand this trap is for TNR only, (not for inhumane, ineffective relocation).
- ☐ Trap location and transportation is protected against weather that would be unhealthy for a cat (no heat, cold, rain).

I take full responsibility for the trap. Deposits are not be refunded in case of Failure to abide by the agreement, or lost, damaged, or stolen traps, and will result in the inability to rent traps in the future and requires an additional \$50 payment to cover ABC's cost of replacing the trap. Deposits are not be refunded in case of lost, damaged, or stolen traps.
